

## RoHS Certificate of Compliance

Acromag is a leader in industrial I/O for process monitoring and control. Some products manufactured by Acromag comply with the following RoHS (Restrictions on Hazardous Substances) EU directive (consult factory for details):

- EU Directive 2011/65/EU (RoHS 2 Recast, June 8, 2011)

Acromag Incorporated is aware that the 2011/65/EU (RoHS2) Directive is limiting the use of certain hazardous substances in electrical and electronic equipment.

The following materials are not to exceed the legal limits:

Lead (Pb, see exemption)  
Mercury (Hg)  
Cadmium (Cd)  
Chromium (Cr VI)  
Polybrominated biphenyl (PBB)  
Polybrominated diphenyl ethers (PBDE)

- EU Directive 2015/863 (RoHS3 - Amending Annex II to Directive EU Directive 2011/65/EU)  
**Note: Not in effect until 22 July 2021 for monitoring and control instruments including industrial.**

Acromag Incorporated is aware that the (EU) 2015/863 (RoHS3) Directive is limiting the use of certain hazardous substances in electrical and electronic equipment.

The following materials are not to exceed the legal limits:

Bis(2-ethylhexyl) phthalate (DEHP)  
Butyl benzyl phthalate (BBP)  
Dibutyl phthalate (DBP)  
Diisobutyl phthalate (DIBP)

The following statement regarding conformity of our products to the EU Directive 2011/65/EU (RoHS2) and EU Directive 2015/863 (RoHS3) is based on our actual research and inquiries with our suppliers:

Acromag is moving towards 100% usage of lead-free soldering metals, unless specific customers or technical requirements need lead-containing soldering materials.

Acromag can also upon customer request provide requested products using lead-free soldering metals.

The RoHS status of many of our products are listed on data sheets, in catalogues, or in our product data base (see [www.acromag.com](http://www.acromag.com)). Also, see attached list.
